Unit 1. Heritage Sites in Satellite Images

Satellites are objects that are made and put into space by people. ①
Satellite images of Earth are used by archaeologists to find important heritage sites. ②

Archaeologists study the history of humans. They look for objects left in the ground by people in the past. ③ Researchers often find these things at heritage sites. Heritage sites are places that were very important to a culture of the past. Over time, the weather damages these areas, and people build over them. ④

[A-D] Complete the sentence. Then add the sentence to the right place.

A. collect, receive, and send / information / They / , including pictures.

They collect, receive, and send information, including pictures.

①

B. hard to find. / covered up / so they are / and forgotten, / They are

C. are / people who study / Archaeologists / the history / of humans.

D. and works of art. / bones, tools, / These / are often

Unit 3. The Oldest Game

Go comes from the Japanese. ① They try to capture the other player's stones. ② The history of Weiqi in China goes back over 2,000 years. Some scholars believe it is 4,000 years old. Over time, the game spread to Korea, and then it reached Japan around 700 CE. However, Go really became popular in Japan only in the 1600s. ③ ④ The Japanese leader at the time, the Emperor, named the winner the Go Minister for a year!

[A-D] Complete the sentence. Then add the sentence to the right place.

A. this game / The Chinese / Weiqi. / call

B. four / were built. / At that time, / Go schools

C. in national competitions. / from these schools / competed / Students

D. on a board. / Two players / stones / place

Unit 5. Rising Sea Levels

Climate change is causing islands to disappear. ① Sea levels rise. This is a huge problem for island nations because they are close to sea level. Some islands are already decreasing in size. ②

Scientists say the seas have risen by about six centimeters since 2000. ③
④ This affects lands near sea level by causing floods.

[A-D] Complete the sentence. Then add the sentence to the right place.

A. As the Earth / ice / into the sea. / warms, / melts and flows

B. This / a large amount. / seem like / may not

C. even higher. / if a big hurricane / waves rise / However, / happens,

D. beneath the water. / are beginning / They / to sink

Unit 7. The Amazon

In fact, most living things on Earth depend on the Amazon in some way.

① In just three acres of rainforest, you can find over 750 kinds of trees and 1,500 other kinds of plants. Because of all this plant life, the Amazon rainforest has been called the “lungs of our planet.” ② In addition, 25 percent of all medicines are made from rainforest plants.

③ ④ The mouth of the Amazon River is over 320 kilometers wide! With all this water, it is not surprising that the river also has a large number of water creatures.

[A-D] Complete the sentence. Then add the sentence to the right place.

A. This rainforest / of plant species / has the largest number / in the world.

B. The Amazon River / it / possible / for so much life / makes / to survive.

C. in the world / to the Atlantic Ocean. / and flows from / It is the second longest / the Andes Mountains

D. 20 percent / It / makes / of the oxygen / more than / the Earth needs.

Unit 9. The Water Cycle

Water on our planet is constantly moving around and around, like a wheel turning. ①

② In the first part of the cycle, the sun heats the water on the ocean's surface, and then the warm water evaporates into the air. The water in the air eventually comes together to form very large clouds, and wind then moves the clouds over land. ③ Some of this rainwater will stay on the land, but most of the water goes down into rivers and streams. ④

[A-D] Complete the sentence. Then add the sentence to the right place.

A. The process / which are the largest / on Earth. / begins with the oceans, / bodies of water

B. meet cold air, / in the form of rain or snow. / When clouds finally / the water comes down

C. begins again. / where the process / to the oceans, / Finally, / it goes back

D. the water cycle, / beginning or end. / This is called / and it has no

Unit 10. Weather Control

So scientists have long been testing ways of controlling the weather. The most common technique is called “cloud seeding.”

Imagine scientists want to create rain in a dry region. ① Then, using airplanes, they spray small pieces of material such as dry ice into clouds. ② In 1947, U.S. scientists seeded clouds to help put out a forest fire.

Since then, the technique has been tried around the world. ③ Chinese officials wanted the Beijing Olympics to be rain-free because the Olympic stadium had no roof. In 2016, Russian scientists wanted to prevent rain on the May Day holiday. ④

[A-D] Complete the sentence. Then add the sentence to the right place.

A. select / the place / First, / and time. / they

B. raindrops to form / If successful, / and rain to fall. / this causes

C. they seeded clouds before / so the sun would shine / In both countries,
/ at the right time. / the big events,

D. an event. / Sometimes / to prevent rain / the goal is / from spoiling

Unit 12. The Blue Sky

On a clear day, the sky looks bright blue. ① The color of the sky depends on the time of day, your location, and the weather.

Light comes to Earth from the Sun. The blue color you see on a clear day is caused by blue light waves coming through the air. ② ③ Blue light waves are shorter and smaller. During the day, when sunlight is more direct, blue waves are absorbed by particles. ④ This prevents us from seeing other colors, making the sky look blue.

[A-D] Complete the sentence. Then add the sentence to the right place.

A. it looks / in the early evening, / red and orange. / But

B. absorb and reflect / more than others. / some light waves / Particles

C. in all directions./ they are / quickly reflected / Then

D. The air is a mix / and salt from oceans. / of small gas particles and other, / bigger particles like dust, ash,

Unit 16. A Family of Words

You have probably noticed that Korean words like “kimchi” or Japanese words like “bonsai” are used in the English language. ① A loanword is a word taken from another language without being changed much. ② Words are often loaned because the thing or concept named by the word is new to the speakers of the borrowing language.

③ This is because that food was not known in English-speaking countries until fairly recently. ④ Similarly, Korean borrowed “pizza” from English speakers, who had borrowed it from Italian.

[A-D] Complete the sentence. Then add the sentence to the right place.

A. them. / have / languages / Many

B. loanwords. / called / These / are

C. from Korean. / the word / was borrowed / Therefore,

D. for kimchi. / there is no / For example, / English word
