

Unit 1

Step 1: Shopping, Email, Social media

Step 2: I use the internet for shopping.

When I use the internet in this way, websites can gather data about my purchases and send me advertisements.

I should use ad-blocking software.

Unit 2

Step 2: I like Claude Monet's painting because I love pictures of water and sunsets.

Unit 3

Step 1: Galileo Galilei is a famous person who improved the telescope and argued that Earth moves around the Sun.

(Your Own) Jonas Salk is a famous person who developed the first vaccine for the polio virus.

Step 2: Answers will vary.

Unit 4

Step 1: I think Hades was the god of death and the underworld.

I think Aphrodite was the goddess of love and beauty.

Step 2: Athena, the Olympian goddess of wisdom and war

Poseidon, the violent and ill-tempered god of the sea

Zeus, the Olympian god of the sky and the thunder, the king of all other gods

Unit 5

Step 1: Grocery delivery, clothes shopping

Step 2: Our clothes shopping business would be called “Your Personal Shoppers.” Customers who don’t like shopping could upload information about their taste in clothes and what they need. People who enjoy shopping could find appropriate clothes and send them to the customers.

Unit 6

Step 1: Answers will vary.

Step 2: 1. The bank offers checking, savings, and credit-card accounts.
2. The interest rate for a savings account is 5.0%.

Unit 7

Step 1: 1. It is a tablet. I want to have one for email and internet surfing.
2. I think \$65 is a fair price for a tablet like this.

Step 2: Place 1: A nearby electronics store has a tablet for \$70.
Place 2: The website Amazon has a tablet for \$60.

Unit 8

Step 1: We buy coffee, milk, avocados, beef, and chicken.

Step 2: If the price of coffee got too high, we could drink tea instead. Or we could drink warm milk with honey.

Unit 9

Step 1: Answers will vary.

Step 2: 1. I want to see the Mona Lisa.

2. It is located in the Louvre Museum in Paris.

3. I want to see a hologram of it because I may never be able to visit Paris.

Unit 10

Step 2: I think pictures 2, 3, and 4 are art because they took skill to make and are interesting to look at.

Unit 11

Step 1: I think picture 2 is a natural history museum.

I think picture 3 is a transportation museum.

Step 2: I like the natural history museum because I enjoy learning about extinct species.

Unit 12

Step 1: I think picture 2 is a topiary. It uses plants.

I think picture 3 is glass art. It uses sand(glass) and heat(fire).

Step 2: Answers will vary.

Unit 13

Step 1: 1. I want to be a translation programmer.

2. I want that job because I'm interested in languages and in computer programming.

3. The problem is that people from different countries have trouble communicating.

I would help solve this problem by creating software to instantly translate speech.

Then people around the world would understand each other better.

Unit 14

Step 1: I would try leech therapy. I think it could be good for preventing tissue death.

I would try laughter therapy. I think it could be good for stress or depression.

Step 2: light therapy, It is good for depression in wintertime.

Unit 15

Step 1: Many people think fish aren't smart and have very short memories. However, they can learn and remember things for a long time.

Many people think bears often attack people. However, they only attack people when they feel threatened.

Unit 16

Step 2: Name: Wattle Cup caterpillar (Calcarifera ordinate)

It has beautiful bright colors but turns into a dull-colored moth.

Name: Hummingbird hawk-moth (Macroglossum stellatarum)

It looks a lot like a hummingbird because it hovers over flowers while feeding on them.
